10:26:13 T-MINUS 3 MINUTES AND 47 SECONDS

LifeNet Medic 17 and Stillwater Engine 2 were dispatched to the intersection of E. 3rd and Main St. for a cardiac arrest victim. It was reported that the patient was in the parking lot of the bank. Both supervisors were mobile in the area and also checked responding to this incident.

While this patient had attended the parade, the patient was not involved in the traffic accident.

10:29:54

LifeNet receives call from Stillwater Central (Stillwater Dispatch). The only information received was “Send all available units to Hall of Fame and Main – traffic accident.”

The three available ambulances were dispatched. One of the supervisors enroute to the cardiac arrest was one block away from the parade accident – he diverted to the accident site.

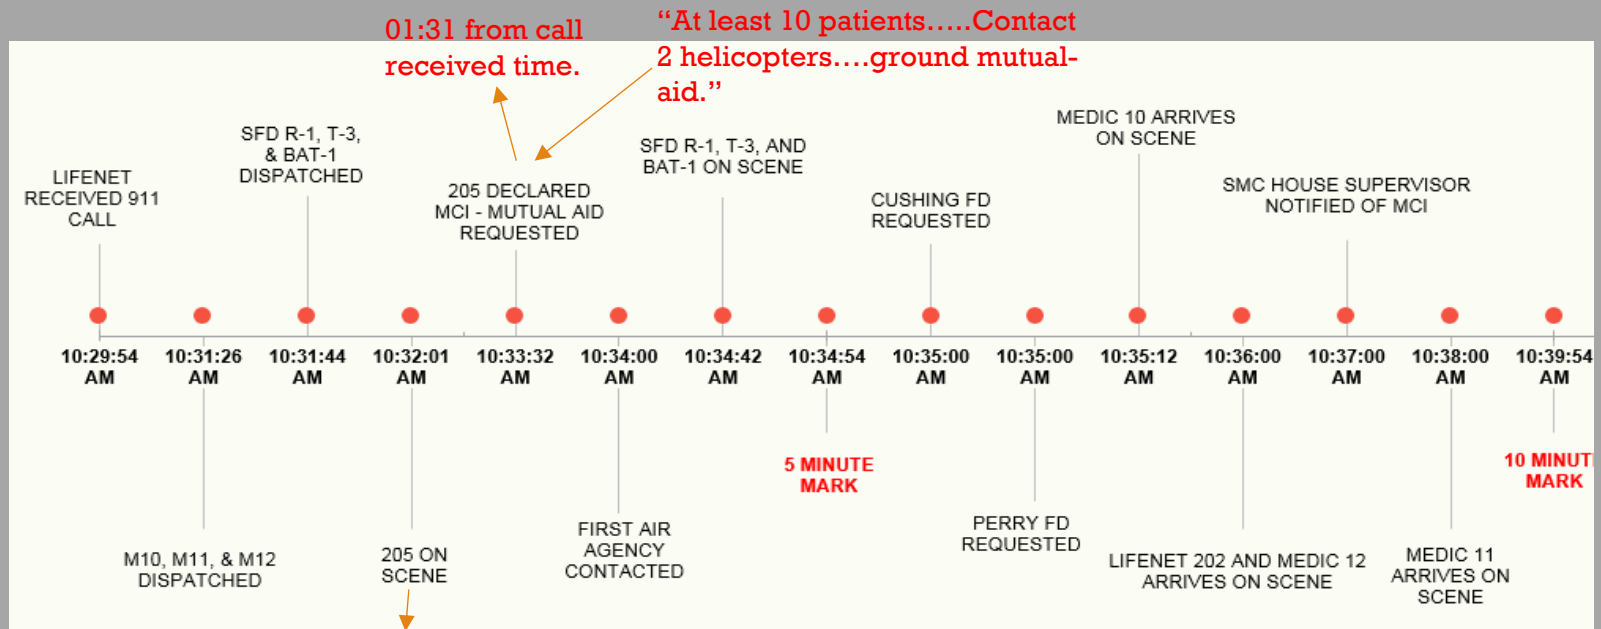

THE FIRST RESPONSE

CALL RECEIVED TO THE 10 MINUTE MARK

01:31 from call received time.

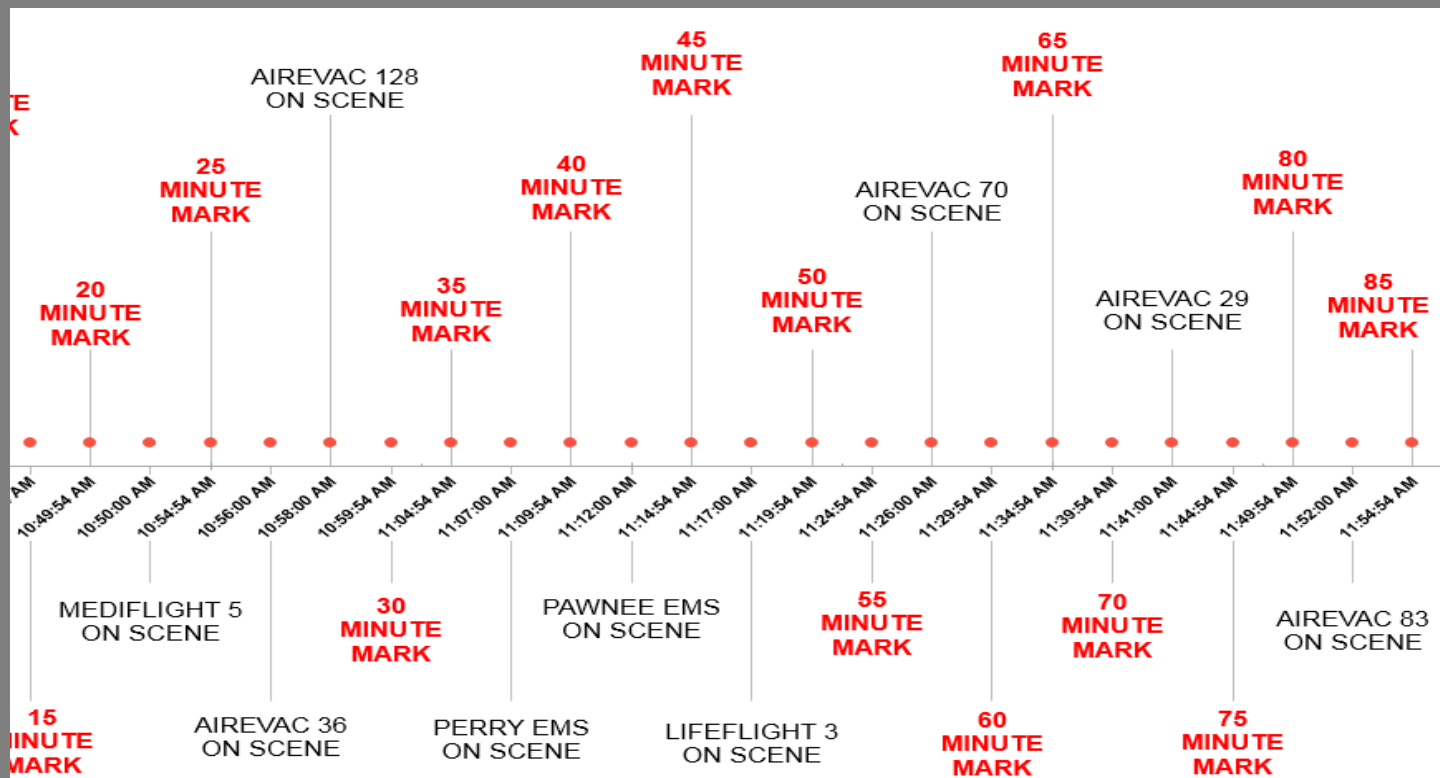

"At least 10 patients.....Contact 2 helicopters....ground mutual-aid."

00:35 from call received time.

#StillwaterStrong 

**OKLAHOMA STATE
HOMECOMING PARADE:
LESSONS LEARNED**

- 1. We were complacent**
- 2. We thought it could never happen to us**
- 3. We were too concerned with expenses and staffing costs**
- 4. We were too focused on game day activities instead of the parade activities that left us vulnerable.**
- 5. We had lack of buy in from partners/lack of prior events**

**OKLAHOMA STATE
HOMECOMING PARADE:
WHAT DID WE CHANGE**

- 1. We placed a law enforcement officer at each signaled intersection with a marked unit.**
- 2. We placed public works employees (in vehicles) at non-signaled intersections.**
- 3. We double the amount of road closure notifications for traffic and double the number of barricades closer to the event.**
- 4. We limited traffic flow from around the parade to an “exit” only style pattern.**
- 5. We increased our community campaigns regarding traffic flow patterns.**
- 6. We introduced Variable Message Boards.**
- 7. We doubled the amount of law enforcement lead/tail units.**
